

FLOATING SUCTION & ROOF DRAIN Section 5.1

FLOATING SUCTION

INTRODUCTION FOR FLOATING SUCTION

This swivel joint is used for air, oil, water, gas and other chemical products, The big inch medium pressure steel swivel joint incorporates a widely spaced.

Precision-machined and hardened dual ball raceway that provides extra moment load capabilities.

FLOATING SUCTION ASSEMBLY

Standard Specification

Type	Flange type	
Size	2" - 36"	
Connection	ANSI 150LB	
Material	Swivel Joint	Cast Steel
	Float	304 S.S
Working press	Max. 10kg/cm ²	
Temperature	Max. 100°C	
Packing	100°C NBR PACKING, 230°C- TFE PACKING	

Dimension Table

Unit = mm

SIZE	2"	4"	6"	8"	10"	12"	16"
ID	50	100	150	200	250	300	350
